EXPERIENCE

Invictus Data Inc

Oct 2024 – Present

DevOps Engineer II

- Led AWS-to-Azure Kubernetes migration for production workloads with **99.95% service availability** and near-zero downtime.
- Drove cloud cost optimization programs across Azure workloads, reducing monthly spend by **\$82K (46%)** from a peak of **\$178K** to **\$97K**, while maintaining platform performance and reliability.
- Implemented service mesh capabilities including mTLS and traffic control across **50+ microservices**.
- Modernized legacy GCP VM-based applications by migrating them to GKE, reducing operational overhead by **40%+**.
- Designed and automated ETL pipelines processing **10M+ records daily** using S3, MWAA, Redshift, and Lambda.
- Migrated centralized logging from CloudWatch to OpenSearch, reducing troubleshooting time by **50%**.
- Built GitOps-driven CI/CD platforms using Circle CI, and Argo CD, reducing deployment time by **60%**.
- Implemented autoscaling and reliability improvements that successfully handled **5x traffic spikes** during peak sales events.

Triffy Digital Private Limited

Nov 2023 – Oct 2024

DevOps Engineer I

- Designed and managed highly available Kubernetes infrastructure across AWS, achieving **99.9% uptime**.
- Automated infrastructure provisioning with Terraform, reducing environment setup time from days to **less than 1 hour**.
- Deployed and managed Strimzi Kafka clusters processing **millions of events daily**.
- Built centralized observability using EFK, Prometheus, and Grafana, reducing MTTR by **40%**.
- Developed reusable Helm charts and Kubernetes templates, reducing deployment configuration effort by **80%**.

Mallow Technology Private Limited

Jul 2022 – Nov 2023

DevOps Engineer I

- Built CI/CD pipelines using GitLab CI, AWS CodePipeline, and CodeBuild, reducing deployment effort by **75%**.
- Automated deployments using Shell and Python, saving **20+ engineering hours weekly**.
- Managed AWS infrastructure including ECS, EC2, RDS, ALB, Auto Scaling, Route53, and CloudFront supporting **10+ services**.
- Successfully migrated production applications from Heroku to AWS ECS and RDS with **zero downtime**.
- Implemented centralized monitoring and logging with CloudWatch, reducing incident detection time by **60%**.

EDUCATION

KG College of Arts and Science

2017 – 2022

M.Sc. Software Systems

74.9%

TECHNICAL SKILLS

Cloud: AWS, Azure, GCP

Containers: Docker, Kubernetes, EKS, AKS, GKE, Helm, Istio, Karpenter

CI/CD & IaC: Jenkins, GitHub Actions, GitLab CI, CircleCI, ArgoCD, Terraform

Programming: Python, Golang, Shell Scripting

Monitoring & Logging: Prometheus, Grafana, CloudWatch, Azure Monitor, ELK, OpenSearch

Messaging: Kafka, AWS SQS, Pub/Sub, Azure Service Bus
